SHEEP

Pattern on Page 74

The sheep is a simple design but has lots of texture. Accomplish this by carving concentric curly-cues with a 1/8" half-round gouge. Come back with a 1/16" veiner and retrace your marks for more detail. Carve several sheep, some smaller than the others, and place them around the shepherds for interest. The block measures 3 1/2" x 2" x 2 3/4".
